Window World

6000 Series Garden Window

The 6000 Series garden window has an outstanding reputation for its distinctive design and excellent performance.

- DP-50 for units 60-1/2" x 60-1/2" inches and smaller.
- Fully welded, rigid PVC frame will not chip, rot or peel and will never need to be painted.
- The center mullion contains aluminum and steel reinforcements for strength and stability.
- High performance LowE, 1" insulating glass package with Super Spacer® is standard.
- 17-inch constant projection from the exterior wall face, with standard 4-9/16" jamb depth.
- Top slope insulating glass (constant 35-degree pitch) is tempered for safety and unit integrity.
- 1-1/4" seat board and jamb for improved structural and thermal performance.
- 1" thick lightweight rigid and waterproof seat board has a R5 insulating value.
- One adjustable 1/2" glass shelf with polished edges is standard. Second shelf is optional.
- Multi-point locking system provides a tighter seal and additional security.
- Locks and operators are conveniently mounted to the inside front area for easy access.
- Operators are sealed to prevent air and water infiltration.
- Fully screened, operating casements for improved weather protection.
- Innovative FlexScreen screens can be easily removed from inside the home.

8000 Series Garden Window

Continuing the tradition of superior engineering and reliability, the 8000 series garden window is the only impact-rated vinyl window on the market today. The 8000 series garden window includes additional features to those found on the 6000 series.

- DP-50 for units 63" x 63" and smaller.
- All IGs have .090 laminated glass.
- Aluminum reinforced center mullion is wider and thicker for extra strength.
- Required knee brace supports are provided with each order.
- Custodial locks on both operating Casements.

Optional features upon request. Contact your sales representative for detail.
