## THE MEETING OF VALUE AND SOPHISTICATED STYLE

Widely loved for their dual operable sash that tilt in for easy cleaning, Window World's 4000 Series windows offer exceptional functionality. Made of premium vinyl that will never fade, and including features like vent latches and constant-force balance systems, these windows provide dependable performance, year after year.

### DOUBLE-HUNG FEATURES

- A** Frames and sash are fusion-welded at mitered corners for added strength.
- B** 3/4" insulated glass with Low-E coating and Argon gas.
- C** U-channel spacer improves energy efficiency by disrupting heat flow.
- D** Interlocking meeting rail design seals sash tightly around weatherstripping.
- E** Multiple lines of high-density weatherstripping reduce drafts. (Not shown)
- F** Sloped sill helps drain water during heavy rain.
- G** Closed-cell foam sill bulb blocks air and water infiltration. (Not shown)
- H** Constant force coil spring balance system holds sash at any position. (Not shown)
- I** Both top and bottom sashes tilt inward for easy cleaning.
- J** Pop-out vent latch allows partial opening for ventilation. (Not shown)

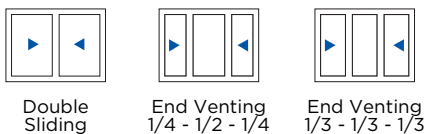

### SLIDING WINDOW FEATURES

- Both sashes slide horizontally.
- Sashes glide on nylon rollers and vinyl track.
- Multi-layer weatherstripping reduces drafts.
- Built-in pull stiles won't loosen or break.

## THERMAL PERFORMANCE

Window World 4000 Series SolarZone insulated glass packages with Low-E and Argon gas help you save on heating and cooling costs while also keeping your home more comfortable. During colder months, SolarZone provides thermal protection to keep heated air inside. While during warmer months, SolarZone reduces solar heat gain, lowering the inside glass temperature and helping your home stay cool. The SolarZone SF package offers even more thermal performance for climates that demand the additional energy saving advantage.
