Double-Hung
& Sliding Windows

Window
World®

CRAFTED FOR QUALITY WITH DECORATIVE OPTIONS TO MATCH YOUR STYLE.

Built to last, our architecturally-accurate beveled vinyl frame design replicates a traditional wood appearance, and is virtually maintenance free. Warm-edge technology is achieved with efficiency features like optimum-sized insulating glass units and a unique spacer design. In addition, our comprehensive warranty ensures a lifetime of dependability. With two operable sash, Window World's 6000 Series Double-Hung Windows are easily cleaned from inside the home for the perfect combination of style and efficiency.

DOUBLE-HUNG FEATURES

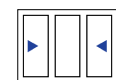

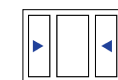

- A** Frames and sash are fusion-welded at mitered corners for strength and durability.
- B** Multi-chambered vinyl profiles enhance strength and thermal performance.
- C** 3/4" double-strength insulated glass with Low-E coating and Argon gas.
- D** U-channel spacer improves energy efficiency by disrupting heat flow.
- E** Interlocking meeting rail design seals sash tightly around weatherstripping.
- F** Multiple lines of high-density weatherstripping reduce drafts.
- G** Sloped sill helps drain water during heavy rain.
- H** Closed-cell foam sill bulb blocks air and water infiltration. (Not shown)
- I** Constant force coil spring balance system holds sash at any position. (Not shown)
- J** Both top and bottom sashes tilt inward for easy cleaning.
- K** Dual pop-out vent latches allow partial opening for ventilation. (Not shown)

SLIDING WINDOW FEATURES

- Both sashes slide horizontally.
- Sashes glide on nylon rollers and vinyl track.
- Multi-layer weatherstripping reduces drafts.
- Built-in pull stiles won't loosen or break.

SLIDER CONFIGURATIONS

Double Sliding

End Venting 1/4 - 1/2 - 1/4

End Venting 1/3 - 1/3 - 1/3

6000 Series Double-Hung windows in Light Oak

On Double-Hung windows, sash tilt in for easy cleaning.

THERMAL PERFORMANCE

Window World 6000 Series SolarZone® insulated glass packages with Low-E and Argon glass help you save on heating and cooling costs while also keeping your home more comfortable. During colder months, SolarZone® provides thermal protection to keep heated air inside. While during warmer months, SolarZone® reduces solar heat gain, lowering the inside glass temperature and helping your home stay cool.

SOLARZONE® TG2 AND TG3 TRIPLE-PANE GLASS PACKAGE

In addition to excellent energy efficiency year round, triple-pane glass also provides added security, noise reduction, and reduces condensation build-up. Contact your Window World design consultant for more details.

| THERMAL PERFORMANCE | | | | |
|---------------------|----------|------|---------|------|
| DOUBLE-HUNG | U-FACTOR | SHGC | R-VALUE | VT |
| Clear Glass | 0.46 | 0.56 | 2.17 | 0.59 |
| SolarZone® | 0.29 | 0.2 | 3.45 | 0.46 |
| SolarZone® SF | 0.25 | 0.2 | 4 | 0.45 |
| SolarZone® TG2 | 0.23 | 0.18 | 4.35 | 0.33 |
| SolarZone® TG3 | 0.22 | 0.23 | 4.55 | 0.43 |
| SLIDER | U-FACTOR | SHGC | R-VALUE | VT |
| Clear Glass | 0.45 | 0.55 | 2.22 | 0.58 |
| SolarZone® | 0.29 | 0.2 | 3.45 | 0.45 |
| SolarZone® SF | 0.26 | 0.19 | 3.85 | 0.44 |
| SolarZone® TG2 | 0.24 | 0.17 | 4.17 | 0.33 |
| SolarZone® TG3 | 0.22 | 0.23 | 4.55 | 0.42 |

SolarZone®
Double-Strength Argon filled glass with spectrally selective coating on surface 2.

SolarZone® SF
Double-Strength Argon filled glass with spectrally selective coatings located on surfaces 2 & 4.

SolarZone® TG2
3-panes of Double-Strength Argon filled glass with spectrally selective coatings located on surfaces 2 & 5. Values based on Double-Strength glass with SolarZone® without grids. Other glass options available upon request.

INTERIOR FINISHES¹

Available in three extruded colors that resist fading over time, with an optional Black interior for a bold, modern look.

White Tan Clay Black

INTERIOR WOODGRAINS⁴

Available in three extruded colors that resist fading over time, with an optional Black interior for a bold, modern look.

White Oak Light Oak Dark Oak Cherry

EXTERIOR FINISHES²

Available in six additional exterior colors, expanding your design options while maintaining long-lasting durability.

Bronze Brown Black Earthtone

Hunter Green Silver

GLASS

Available in clear, tinted, or privacy glass options, allowing you to enhance privacy.

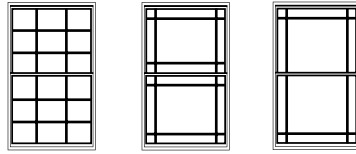

Rain Obscure Tinted Grey Tinted Bronze

LIMITATIONS

- ¹ Black interior available only with Black exterior.
- ² Exterior colors require additional lead time.
- ³ Hardware is matched to your window as a standard feature.
- ⁴ Not all interior/exterior colors and grid combinations available.
- ⁵ Not all colors available. Woodgrains available on interior only.

OPTIONAL GRIDS⁵

Optional flat or contoured grids are enclosed within the glass for easy cleaning. Optional Simulated Divided Lite (SDL) grids are placed on the exterior of the glass, giving the appearance of a traditional divided-lite window. Both grids between the glass and external SDL grids are available in White, Tan, Clay, Brass, and all woodgrain options.

Colonial Prairie Perimeter

HARDWARE³

Hardware is color matched to your window as a standard feature. Optional plated hardware is also available in four finishes - Satin Nickel, Bright Brass, Antique Brass, and Bronze.

White Tan Clay Satin Nickel

Bright Brass Antique Brass Bronze

APPLIED LIFT HANDLE

Upgrade your 6000 Series Double-Hung, Slider, or End-Vent Slider window with an optional applied lift handle. Designed to ensure a long-lasting, flawless finish with a Lifetime Warranty on the finish.

- Better grip and control
- Warmer to the touch than metal
- Available in White, Tan, and Clay
- Non-corrosive marine-grade composite, which is great for coastal areas

The 6000 Series Applied Lift handles will be placed where you would normally find an extruded lift handle. Double-Hung windows wider than 42", and Slider windows taller than 42" will have two lift handles per operable sash for easier lifting.
